

Alphapointe Technology Camp

Alphapointe Technology Camp is a week-long day camp experience for Missouri & Kansas middle school and high school students with vision impairments (ages 12-18).

Kids should know that this will not simply be an extension of school but will be FUN.....facebook, music, & game apps included! Campers will learn to utilize various technologies that will impact their academic development, improve their internet navigation, and social networking knowledge & safety.

In addition to hands-on technology learning, campers will have an opportunity to meet and work with a variety of mentors who have successfully utilized technology in their chosen careers as professionals with vision loss.

Up to 20 students are selected for this program through nominations by Teachers of the Visually Impaired.

There is no cost for this camp; however, the camper must attend all 5 days to receive a free gift for completing camp.

When: July 25th – 29th, Monday thru Friday, 10:00am – 2:00pm

Where: Alphapointe, 7501 Prospect, Kansas City, MO 64132

For questions: Clay Berry at (816) 421—5848 or cberry@alphapointe.org
